---

## Professional Summary

DevOps Engineer with 3+ years of experience in building CI/CD pipelines, containerization, and cloud infrastructure management. Skilled in Docker, Kubernetes, and Infrastructure as Code tools like Terraform. Experienced in Linux administration and monitoring systems to ensure high availability and performance.

---

## Technical Skills

**Cloud Platforms:** AWS, Google Cloud Platform (GCP)
**Containerization:** Docker, Kubernetes
**CI/CD Tools:** Jenkins, GitHub Actions, GitLab CI
**Infrastructure as Code:** Terraform, Ansible
**Monitoring Tools:** Prometheus, Grafana
**Operating Systems:** Linux (Ubuntu, CentOS)
**Version Control:** Git, GitHub

---

## Work Experience

**DevOps Engineer**
TechSolutions Pvt Ltd | 2022 – Present

- Designed and implemented CI/CD pipelines using Jenkins and GitHub Actions.
- Containerized microservices applications using Docker and deployed them on Kubernetes clusters.
- Managed AWS infrastructure including EC2, S3, and IAM roles.
- Automated infrastructure provisioning using Terraform.
- Implemented monitoring dashboards using Prometheus and Grafana.
- Managed Linux servers and performed system troubleshooting and performance optimization.

---

## Projects

**Cloud Infrastructure Automation**

- Built automated infrastructure provisioning using Terraform.
- Deployed containerized applications on Kubernetes clusters.
- Implemented monitoring using Prometheus and Grafana dashboards.

**CI/CD Automation Pipeline**

- Created automated build, test, and deployment pipelines using Jenkins.
- Integrated GitHub repositories for automated deployments.

---

## Education

Bachelor of Technology (Computer Science)
Delhi Technological University | 2018 – 2022

---

## Certifications

- AWS Certified Cloud Practitioner
- Docker Certified Associate
